

b. I help care for my 84-year-old mother in Franklin every Tuesday for approximately six hours while my sister is at work. My mother lives in an in-law apartment attached to my sister's home. While I am there, I have no contact with anyone besides my mother.

c. I go grocery shopping approximately once per week.

d. I occasionally do a "walk by" at my daughter's home to see my daughter and my three grandchildren. I do not enter my daughter's home and I am careful to stay at least six-to-ten feet away from everyone at all times.

5. My father, William Doo, died from COVID-19 on April 9, 2020. Because I have already lost my father to COVID-19 and because I visit my mother on a weekly basis (and do not want to risk infecting her), I am extremely vigilant in protecting myself from infection. Whenever I am in a public place around other people, I always wear a mask. In addition, I bring wipes and hand sanitizer with me when I go places. I am careful to disinfect objects others may have touched (doorknobs, shopping carts, etc.) and regularly sanitize my hands when entering or leaving places.

6. If the Court permitted Robert to return home, I would continue to maintain these practices.

I declare under the penalty of that the foregoing is true to the best of my knowledge.

Executed this ____ day of _____, 2020.

Loretta Pena

I hereby certify that I have discussed the contents of this declaration with Loretta Pena prior to filing and will submit a signed copy of the declaration when I receive it.
